A fine assortment of

Kitchen : Furnishings.**Gray : Agate : Ware****A Specialty.****Kaahumanu Street.****Hawaiian****Electric****Company.**

The cleanest, brightest and really

the long run, the cheapest and best light

for use in the family residence, is the incan-

descent electric light. Safe; nothing could

be safer. A few days ago a prominent

gentleman of Honolulu came rushing down to

the office of the Electric Company and said:

"Give me figures for wiring my house, and I

want it done at once; no more lamps for me.

Last night a lamp tipped over and it came

near setting fire to the house and burning

my children and I take no more risks."

This is the sentiment of quite a number in

the past few weeks, who have ordered their

houses fitted with the perfect light.

Just think it over and make up your mind

that you want the best and safest light; send

for the Hawaiian Electric Company and tell

them what you want.

We have a complete stock of everything in

this line and have just received a lot of the

very latest designs in chandeliers

TO TONE UP THE SYSTEM AGAINST OPPRESSIVE HEAT**"I Consider it Unequaled"**

Mr. Edwin Bright of Brisbane, Queensland, gives this strong testimonial:

**"I am pleased to say I have used****AYER'S Sarsaparilla**

both in the United States and throughout Australia whenever I have felt the need of a tonic. As a remedy for loss of appetite, weakness and debility, and to tone up the system to withstand the oppressive heat and sudden changes I consider it unequalled."

For constipation take Dr. Ayer's Pills. They promptly relieve and surely cure. Take them with Dr. Ayer's Sarsaparilla; one aids the other.

HOLLISTER DRUG CO.

WHOLESALE AGENTS.

FOR SALE.**A REAL ESTATE BARGAIN.**

A. F. COOKE, Manager.**NIKOLA TESLA NO KEELEY**

LAYMAN QUOTES SCIENTIFIC OPINIONS.

No Impracticable Visionary, but a Worker with Solid Achievements Behind Him and Larger Before.

Thuria—Sir, if you spend word for word with me, I shall make your wit bankrupt.

Valentine—I know it well, sir; you have an exchequer of words.

—Shakespeare.

Editor Star: The morning journal gives many words on many subjects, and cannot be expected always to hit the mark; perhaps it is least happy when criticising and casting stings upon scientific men to whom the world is much indebted, and who by their peers are looked upon as eminent and of note as leaders and instructors of that ever widening sphere of cultured thought and knowledge that will one day dominate the world. The journal named quite recently an immoderate upon certain views held, and statements made by Sir William Crookes, president of the British Association for Advancement of Science. In a somewhat similar vein it this morning speaks of Nikola Tesla, the learned electrician.

The morning journal tells its readers "that there is a growing impression that Tesla is a sort of second Keeley." The said journal further informs the public that "popular knowledge of the man (Mr. Tesla) is given in the Sunday editions of the papers on the mainland and some of the scientific journals." Not having the inestimable advantage of reading the "Sunday editions" of the papers alluded to, and not being sufficiently erudite to have come across any "scientific journal" that in any way could lend fair-minded persons to connect anything of the great Servian's electrical work, or of his expressed thoughts thereon, with the buffoonery of a "circuit bill," I say, not having had these advantages, the morning journal will doubtless pity me. Perhaps you, sir, however, will allow me to quote, as possibly not uninteresting to your readers, words from one of the great magazines touching upon the subject matter of this letter. If they do not altogether fit in with the views of the "Sunday editions," it may be regretted, but cannot be helped: "Electricity has, indeed, taken distinctly new ground of late years, and its present state of unrest, uncertainty, and in other regions of research, is a recent theory and a striking manner of Nikola Tesla, who, by himself alone, has come to be a byword and typical figure of the age." Tesla, he invites investigations into the nature of electricity, or for beautiful inventions in which is offered a concrete embodiment of the latest means for attaining the ends most sought after in the distribution of light, heat and power. Very like a Keeley! Once more, Mr. Editor, may I quote from an article summing up Mr. Tesla's work: "Here are great results, lofty aims, and noble ideas, and yet they are but a beggarly few of all those with which Mr. Tesla, by his simple, modest work, has associated his name during recent years. He is not an impracticable visionary, but a worker who, with solid achievements behind him, seeks larger and better ones that lie before, as well as fuller knowledge."

Surely it is not fitting for a well-informed journal to set forth before its readers the idea that, of Nikola Tesla, one of the foremost electricians of the day, "there is a growing impression that he is a sort of second Keeley."

December 7, 1898.

FEARFUL OF CARLISTS.

Sagasta Admits They Threaten the Peace of Spain.

LONDON, December 1.—The Biarritz correspondent of the Daily Mail says: "Senor Sagasta, who has hitherto been skeptical on the point, now admits that Carlism is the greatest existing danger in Spain. The authorities are seriously alarmed at the indication of an imminent rising. The Carlism plans have been elaborately devised, even to the extent of appointing a governor of Madrid."

The Madrid correspondent of the Daily Mail says: "Lieutenant General Corrao, minister of war, declares that the government has 140,000 troops in readiness to take the field in the event of a Carlism rising and will soon have 200,000 available. He says 'however that he does not believe the Carlism intend to move.'"

HAWAIIAN CABLE.

NEW YORK, November 29.—A special dispatch to the World from Washington says: "A cable between the United States and the Hawaiian Islands will undoubtedly be provided for at the forthcoming session of Congress. The World correspondent is informed tonight by an official close to the president that in his annual message the president will suggest the advisability of cable connection between San Francisco and Honolulu."

A Wheel, a Wheel,

All my marbles for a wheel. So says the small boy when he sees his playmate riding by on a new bicycle. You can make the small boy happy and let him keep his marbles. Christmas is the day that this young man hopes will bring him the one thing he has been longing for and that day is most here; are you going to disappoint him?

Our juvenile wheels are first class, just as well made as the full sized ones, made by the same people, guaranteed in the same way, fitted with G. & J. tires, just as the larger ones are. We have sold lots of them the past two years; they are no longer on trial.

We have them in three sizes, and they cost from \$28.00 to \$35.00. Make your small boy happy.
